

CLARENCE SIOSON

COMPUTER ENGINEERING GRADUATE

CONTACT

 yraccoon.github.io/cs_portfolio

SKILLS

Frontend: HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS

Backend: Python, JavaScript, Node.js, Express.js

Tools: Git, Power BI

Other: REST APIs, Arduino, OpenCV, SQL

REFERENCES

ABOUT ME

Passionate software developer specializing in creating elegant, efficient web solutions. Graduated in Computer Engineering and focused on building impactful projects.

EDUCATION

Bachelor of Science in Computer Engineering

University of Perpetual Help System DALTA – Calamba

PROJECTS

Portfolio Website

A responsive website displaying projects and technical skills for potential employers.

Arduino DHT11 Project

Created a data-logging system that monitors environmental conditions using sensors.

SEA Dashboard

Built COVID-19 analytics dashboard for Southeast Asian countries using Python, Pandas, and data visualization libraries.

PDF Merger

Created a desktop application using Python and CustomTkinter with drag-and-drop functionality for merging multiple PDF files.

To-Do-App

Developed a task management system using Flask and Sheety API

SkinCheck

Built computer vision system using YOLOv8 and Flask backend to detect skin conditions from uploaded images

EXPERIENCE

Engineer (OJT / Intern)

Toshiba Information Equipment (Philippines), Inc.

March 9 - June 2

- Built a real-time monitoring dashboard with pandas, Flask (Python) and Javascript.
- Developed an inventory system and designed interactive data visualization using pandas and Plotly.js.
- Developed an archive system with filtering and analysis.
