SKILLS

Frontend: HTML5, CSS3, Javascript, Bootstrap, Tailwind

Backend: Python, SQL, Javascript

Tools: Git, Power BI

Other: REST APIs, Arduino, OpenCV

REFERENCES

ABOUT ME

Passionate software developer specializing in creating elegant, efficient web solutions. Graduated in Computer Engineering and focused on building impactful projects.

EDUCATION

Bachelor of Science in Computer Engineering

University of Perpetual Help System DALTA

PROJECTS

Portfolio Website

A responsive website displaying projects and technical skills for potential employers.

Arduino DHT11 Project

Created a data-logging system that monitors environmental conditions using sensors.

SEA Dashboard

Built COVID-19 analytics dashboard for Southeast Asian countries using Python, Pandas, and data visualization libraries

PDF Merger

Created a desktop application using Python and CustomTkinter with drag-and-drop functionality for merging multiple PDF files

To-Do-App

Developed a task management system using Flask and Sheety API

EXPERIENCE

Engineer (OJT / Intern)

Toshiba Information Equipment (Philippines), Inc.

March - June

- Built a real-time monitoring dashboard with pandas, Flask (Python) and Javascript.
- Designed interactive data visualization using pandas and Plotly.js.
- Created an archive system with filtering and analysis.
