TECHNICAL SKILLS

FRONTEND

HTML5 CSS3 JavaScript
Bootstrap Tailwind

BACKEND

Python Flask Node.js
Express REST APIs C#

FRAMEWORKS & LIBRARIES

React jQuery Pandas
OpenCV CustomTkinter

TOOLS & PLATFORMS

Git VS Code Power BI
Jupyter Arduino

INTERESTS

Software Development
Data Science Web Development
IoT & Embedded Systems

EDUCATION

Bachelor of Science in Computer Engineering

University of Perpetual Help DALTA
— Calamba

Graduated: June 2026

ABOUT ME

Computer Engineering graduate and software developer with hands-on experience across Web Development, Data Analytics, Computer Vision, and Hardware Integration. Skilled in Python, JavaScript, React, Flask, and Arduino. Experienced in building full-stack web apps, data dashboards, desktop GUI applications, and embedded systems.

EXPERIENCE

Engineer (OJT / Intern)

March 2026 - June 2026

Toshiba Information Equipment (Philippines), Inc.

- Built a real-time monitoring dashboard with pandas, Flask (Python) and Javascript.
- Developed an inventory system and designed interactive data visualization using pandas and Plotly.js.
- Developed an archive system with date filtering, search, and export features using pandas.

KEY PROJECTS

Personal Portfolio Website

Modern responsive portfolio with glassmorphism design, interactive elements, and smooth animations. Features an aurora-themed UI with dark mode.

HTML5 CSS3 JavaScript Tailwind CSS

→ yraccoon.github.io/cs_portfolio

PDF Merger Desktop Application

Desktop app with drag-and-drop interface, preview, and batch processing for merging PDF files.

Python CustomTkinter PyPDF Pillow

SkinCheck — Skin Disease Detector

Web-based skin disease detection using YOLOv8 for object detection with Flask backend API.

Python Flask YOLOv8 OpenCV JavaScript

Arduino DHT11 to C# Serial Monitor

Real-time temperature & humidity monitoring with Arduino sensor and C# desktop application.

Arduino C# .NET Serial Communication

Class Schedule Creator

A gingerbread-themed weekly schedule app — add classes, view calendar grid/list, export to PDF.

React TypeScript Tailwind CSS Vite jsPDF

Internship Tracker

Offline-first web app for logging internship hours with color-coded calendar, progress dashboard, CSV import/export.
